

MSU Secure Android

Montclair State University provides an encrypted secure network through its MSU Secure Network.

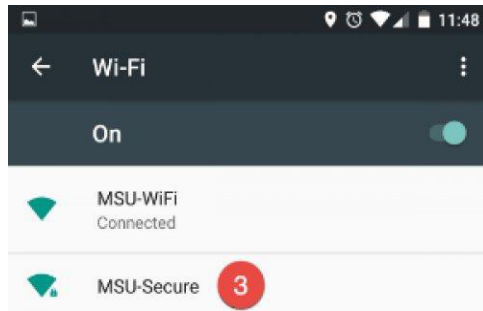

The MSU Secure Network is the recommended option for anyone with an MSU NetID.

The following steps will show you how to connect to **MSU-Secure** utilizing an **Android** device.

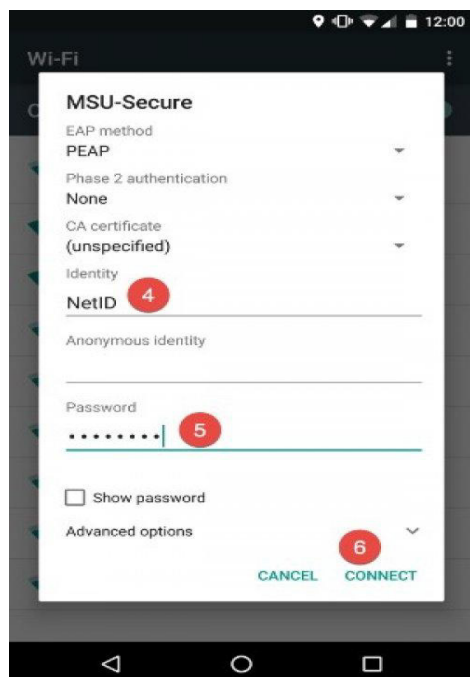

- 1) Click on the **Android Applications** icon, then select **Settings**.

- 2) In settings, select **WiFi**

- 3) Select "**MSU Secure**" network SSID.

- 4) When prompted, enter your **MSU NetID** and **Password**, then press **Connect**.
