

MSU Secure MacOS

Montclair State University provides an encrypted secure network through its MSU Secure Network.

The MSU-Secure Network is the recommended option for anyone with a MSU NetID.

The following steps will show you how to connect to **MSU-Secure** utilizing your **Mac OS X device**.

Select the **Network icon**, located on the **right side of the menu bar**, then, click on **MSU-Secure**.

Enter your **MSU NetID and password** when prompted.

When prompted to verify the server's certificate, select **Continue**.

Enter **username and password** for your device then click **Update Settings**.

Managed Montclair State University computer, use your **MSU NetID and password.**

Personal computer, use your **customized username and password.**
