

MSU Secure Windows 11

Montclair State University provides an encrypted secure network through its MSU Secure Network.

The MSU-Secure network is the recommended option for anyone with a MSU NetID.

The following steps will show you how to connect to MSU-Secure utilizing a Windows

11

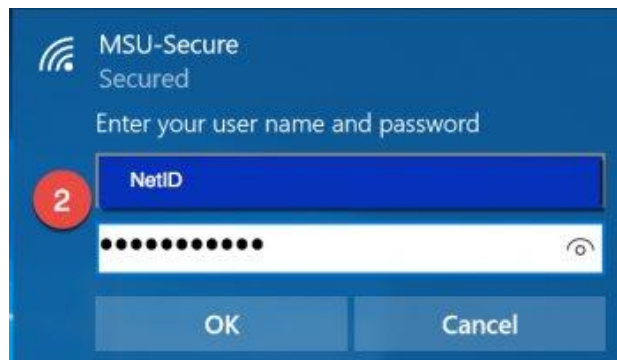

Windows Desktop

Click on the Network settings icon found in the notifications area of your **Windows Taskbar** (located in the bottom right hand corner of your screen). Click on **MSU-Secure**, then click **Connect**

MSU NetID

Enter your **MSU NetID** and password

Connect

When asked if you would like to continue connecting, press **Connect**
