Public Labs Printers

The Division of Information Technology supports a number of public, teaching and testing labs and their associated printers across campus that run on PC Desktops running the Windows 10 Operating System. The public labs have a mix of standard and requested applications installed and are only accessible by currently enrolled students and, in some cases, alumni. All students and alumni must show valid Montclair State University identification. [Public Computing Labs Schedule](#) The teaching and testing labs are utilized by the campus in order to teach or test currently enrolled students. These spaces are scheduled by the Registrar and/or the Academic Unit.
